

## Seminar on Investment Opportunities in Penang

### Introduction

Penang is a location of choice for investors and destination of choice for tourists. In 2013Q1 Penang is the top 3 investment states in Malaysia, and investment from Singapore ranked the third among foreign investment in Penang. Penang has a successful supply chain clusters for the electrical & electronics, specifically semiconductor, data storage, Light Emitting Diode (L.E.D.), medical devices, and the State Government is also promoting growing and high value-added industries such as aerospace and its supporting products and services. This seminar will provide essential information needed for investors with interest to expand in Penang. Join this seminar to find out more on the investment opportunities in Penang.
